

rebecca's café, Burlington, MA Mangel Architects, Acton, MA

Aceray's C2M series was selected for a bright, durable seating choice. The 150R-03 stacking side chair has a white plastic laminate front and back, a vertical cut out in the back, and a lime green seat pad. The matching barstools have a vertical cut out. The Piazza Table bases offer a clean contemporary statement in brushed stainless steel. The lounge/dining chairs are the 362 SWIV chairs using injection molded foam, that offers strength and comfort and elegant thin shapes over a steel frame.
